HYDROGEN AMERICAS 2025

SUMMIT & EXHIBITION

3 - 4 SEPTEMBER 2025

**GAYLORD NATIONAL RESORT &
CONVENTION CENTER, WASHINGTON D.C.**

THE GLOBAL H2 HUB IN THE AMERICAS

Having established itself as the premier gathering for the global hydrogen community in the Americas region, the **Hydrogen Americas 2025 Summit & Exhibition** returns to Washington D.C. on 3-4 September 2025. The event will be hosted at the iconic Gaylord National Resort and Convention Center, featuring a world-class exhibition and product showcase arena highlighting the latest advancements in hydrogen technologies, energy storage applications and CCUS.

Following the selection and subsequent award negotiations of 7 Regional Clean Hydrogen Hubs, all eyes are on the U.S. for the expected next phase of developments. Hydrogen Americas continues to be the meeting point for collaboration across the H2 value chain and a key government mouthpiece for dissemination of announcements and lessons learnt which will shape the future of the hydrogen business world-wide.

Register your place today to connect with new business partners and exchange the latest insights to make your hydrogen project a reality.

VIDEO HIGHLIGHTS

“This was the best hydrogen-focused conference of the 15+ I’ve attended over the past several years.”

EXPLORING CLEAN HYDROGEN STRATEGIES & PARTNERSHIPS FOR THE AMERICAS

THE SUMMIT

The Hydrogen Americas Summit is renowned for hosting the most senior leaders defining the hydrogen industry today. With a speaker line up packed with policy makers and key industry leaders from across the U.S. and Americas, the Summit is the platform to address key questions at the highest level and where hydrogen developers can grasp the impact of latest policies to ensure the most effective use for successful projects.

“This was an excellent, highly professionally done event that attracted top stakeholders in the US and global H2 industry. The venue and location were great too.”

MAGGIE FIELD
Western Hydrogen Hubs Manager
Clean Air Task Force

KEY THEMES INCLUDE:

- REALISING OFFTAKE AGREEMENTS & DEMAND FOR HYDROGEN
- THE NEXT PHASE OF H2 HUB DEVELOPMENT ACROSS THE USA
- REGULATORY CLARITY TO DRIVE INCREASED INVESTMENT
- HEAVY INDUSTRY DECARBONISATION WITH HYDROGEN CASE STUDIES
- KICKSTARTING INFRASTRUCTURE DEVELOPMENT TO ENABLE THE MARKET
- DECARBONISING MOBILITY THROUGH HYDROGEN TECHNOLOGIES
- HYDROGEN TECHNOLOGY ADVANCEMENTS AND COST REDUCTIONS
- HYDROGEN ECOSYSTEM INTEGRATION
- CERTIFICATION AND GLOBAL STANDARDS TO ENABLE TRADE

TESTIMONIALS FROM ATTENDEES

“This is always a great event and I’m so appreciative for the Sustainable Energy Council and for all the folks who have helped make this event a success year after year. It’s such an important opportunity for us to celebrate the achievements that we’ve had but also to continue to look forward on opportunities to build new partnerships and to develop further strategies to advance clean hydrogen. I always leave here learning something and I know that folks who participate year after year agree with that.”

JEFF MAROOTIAN

Office of Energy Efficiency and Renewable Energy
U.S. Department of Energy

“I find that any good conference does a few things, it provides inspiration because you see others that are doing better than you that you can be inspired from, it provides networking, people you can learn from going forward, and it provides a cohort which is going to give you an ongoing learning opportunity, and from the people that I’ve met here today it seems that this conference is hitting all 3 of those marks really well.”

MICHAEL HECHT

President and CEO
Greater New Orleans Inc

“Hydrogen Americas is a terrific event because it truly does bring all the stakeholders together that we need. As an environmental NGO working on climate change, we feel like we have an important seat at the table here at this event and we’ve really been welcomed in, and there’s a lot of interest in understanding the science and how we can get hydrogen right based on that science. It’s an honour to be here working with companies, with policy makers on finding these solutions. This is the moment for us all to come together and figure out how to get hydrogen right.”

BETH TRASK

Vice President, Global Energy Transition
Environmental Defense Fund

“It’s attracting a large number of people, you come to this conference and you’re able to meet a lot of people and a lot of companies throughout the value chain all at once. So there’s a nice variety of the sessions in terms of discussion about policy, discussion about different technologies, discussion about both producing OEMs and uses. So nice variety there and the of course the networking opportunity is excellent, there’s large number of people from different experiences, different industries, and so it’s a really great value in that respect.”

STEVEN PARENTE

Hydrogen Infrastructure and Integration Specialist
Caterpillar

“It has been great, great conversations, good engagement, a lot of interactions with different stakeholders, research firms, offtakers, EPCs, OEMs, developers, so very engaging. I met new people, which I think is critical to understand where we can act more in the industry outside of our current activities, so the networking piece was very fruitful here. It’s particularly the mix of stakeholders here because it’s in D.C., so we have a lot of government input, research firms, plus the developers and all the value chain suppliers, and it’s a good mix to learn but also engage.”

LAURA BERGEDIECK

Senior Vice President for
Hydrogen Development
RWE Clean Energy

THE PLACE TO SHOWCASE INNOVATION IN H2 TECHNOLOGIES

THE EXHIBITION

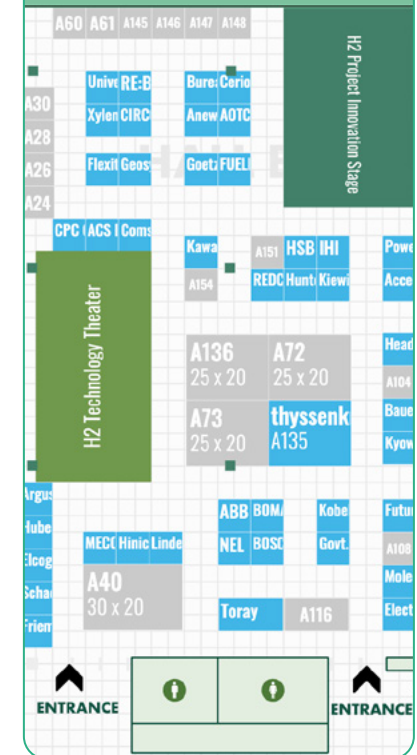

The Hydrogen Americas Exhibition unites leading hydrogen stakeholders to meet technology manufacturers, private sector leaders, policy makers and innovators contributing to hydrogen's critical implementation. Showcase your latest innovative products for an opportunity to discuss, collaborate, and do business with investors looking to drive the hydrogen industry forward.

"From my perspective, this was one of the best hydrogen exhibitions I've attended."

WHY SHOWCASE?

- ✔ Highlight your products and services to buyers and partners
- ✔ A cost and time effective way to discover new business opportunities
- ✔ Position your brand as a leader in the growing hydrogen market
- ✔ Exchange insights and answer your clients' questions instantly
- ✔ Be part of a growing hydrogen community in the region
- ✔ Generate new leads for your company in a highly targeted environment
- ✔ Host meetings and secure business deals right on your stand

TESTIMONIALS FROM EXHIBITORS

“We’re back here again this year because we had a really good experience in our first year, we want to show all our allies in the U.S. that we’re in a leadership position in renewable energy and clean hydrogen production in Australia. We’ve been very impressed actually with the broad scope of the people that have been here, we’ve had many enquiries from not only equipment suppliers but also project developers, so investors and proponents alike.”

CHRIS WOOD

Executive Director of Invest SA
Department for Trade and Investment
Government of South Australia

“It’s a great place to meet people that have similar interests and looking to resolve solutions that hopefully resolve problems with the solutions that we can hopefully provide. Over the years we get to meet more and more people, always great to see them and make new connections, and really it accelerates business development within two days which would take us over 6 months on the road just to try to meet all those people. Very efficient and a very great environment to do so.”

PIERRE POULAIN

President and CEO
Powertech Labs

“Our experience here has been great, we were here last year, we got the exact same booth, the exact same location, we have the same next door neighbors, it’s been really great. The volume of people yesterday all the way through the day was great. I’ve met people from the DOE, I’ve met people that are startups, I’ve met some companies that are huge in the industry, so this has been really really good. This is what brought HSB back this year is we had such a great turnout last year and got some good leads, and let’s face it once the money starts flowing, business for everyone will be great.”

GEORGE DRAKE

Global Project Manager
Hartford Steam Boiler

“The Hydrogen Americas Summit is very important for us to attend every year because of the footprint that we have in the U.S. when it comes to hydrogen plans, and the impact that we think that we can have on helping the U.S. to achieve their climate goals. We come here to interact with potential partners, potential customers, and enable decarbonization as much as we can for the U.S. We had a lot of traffic come to our booth and so I think we had a lot of productive conversations, we collected a lot of new contacts and we hope to follow up on that after the conference.”

MAKINI BYRON

Director, Clean Energy Business Development
Linde

DECARBONIZING THE GLOBAL ECONOMY THROUGH CLEAN HYDROGEN

H2 TECH SERIES

This year, we're delighted to reveal 2 H2-Tech stages will be running parallel to the Summit Sessions on the exhibition floor. Join us to hear a collection of technical presentations directly from hydrogen experts presenting their company's latest technologies and solutions to develop a hydrogen ecosystem, whilst also having the opportunity to network with 5,000 visitors!

“Very well managed enjoyed the technical sessions at the exhibition.”

WHY YOU SHOULD VISIT THE EXHIBITION & H2 TECH SERIES:

- ✓ Hear from hydrogen experts, on the Exhibition floor
- ✓ Explore a wide range of topics to enhance your hydrogen knowledge
- ✓ Grasp the latest cleantech developments for your hydrogen business
- ✓ Meet with technology manufacturers presenting their latest solutions
- ✓ Ask your questions and understand the future of hydrogen applications
- ✓ Get unique access to high-level hydrogen insights free of charge
- ✓ Expand your network and kickstart your industry collaboration
- ✓ Secure deals and do business with key speakers at their Exhibition stands

WHY SPONSOR HYDROGEN AMERICAS 2025?

- ✓ Reinforce your commitment to the industry
- ✓ Position your company as a thought-leader in the market
- ✓ Showcase your company's latest products and solutions
- ✓ Generate new business leads and contacts
- ✓ Get prime exposure to senior decision makers and Government officials

LET US HELP YOU CEMENT YOUR BRAND AS A PIONEER OF THE EMERGING GLOBAL HYDROGEN INDUSTRY.
